

# NITRO STAINS

A range of penetrating oil-based stains, specifically formulated for application onto timber flooring. Ideal under Hard Wax Oil.

## **Application**

Stir the contents well and always check the shade before application.

***Rolled On Method*** - For a deep colour, roll out the stain evenly using a 10mm microfibre roller in the direction of the grain working out a few boards/areas at a time. Use a paint brush to blend the end boards and leave.

***Buffed In Method*** - For a lighter two-toned effect use a **SLOW** speed buffing machine (175RPM) with Fiddes Buffing Cloth or like material on a pad. Pour the stain directly onto the pad and buff in evenly. Brush the stain on the edges and rag off the excess.

***Wipe on/Wipe off Method*** -Take a clean, lint free cotton cloth or sponge and apply in the direction of the wood grain where possible. Take care to remove any excess stain immediately with a separate, clean absorbent cloth, again following the direction of the grain pattern. To obtain a uniform colour, always wipe evenly, blending the stain over the whole surface area by exerting a degree of pressure when applying by hand. Leave to dry, and do not sand between coats. The application of additional coats will deepen the existing colour/shade.

Application methods can be viewed on our YouTube Channel via Fiddes Australia

## **Dry Time**

1-4 hours (depending on conditions and applications)

## **Coverage**

15-30 sqm per Litre (depending on substrate and method of application)

## **Coats**

1 coat – further coats will deepen colour/shade. (Leave for 24 hours between coats)

## **Thinners/Clean Up**

Nitro Thinners

## **RECOMMENDED FOR USE ON**

Floors – Timber or Cork, Joinery, Furniture, Internal Timber
