

SUPREME WAX

Formulated to offer excellent results on bare or sealed timber, Fiddes Supreme Wax Polish contains a unique, environmentally friendly blend of waxes that naturally enhance the beauty of your wood. Available in Clear/Light and seven carefully selected shades, the Supreme Wax range exhibits significant advantages over many traditional toluene-based wax polishes. Supreme Wax is virtually odour free, easy to apply and once buffed to the desired sheen level, provides a depth of finish that revives and protects any original patina.

Preparation

Sand the wooden substrate in stages, working with a medium sandpaper (120 grit), through to a medium/fine grade (180-220). Always sand in the direction of the grain pattern where possible, ensuring the removal of any blemishes and glue residue. Take care to remove all traces of sanding dust prior to application.

Ideal Application

Take a clean cloth, sponge or brush and apply in the direction of the wood grain where possible. To obtain a uniform colour, always wipe evenly, blending the Supreme Wax over the whole surface area by exerting a small degree of pressure when applying by hand. Take care to lightly remove any excess immediately with a separate, clean absorbent cloth.

Dry Time

3 Minutes at room temperature.

Coverage

16 sqm per Litre (depending on substrate and method of application).

Coats

1 coat - The application of additional coats will deepen the existing colour/shade and significantly enhance the resulting sheen level.

Thinners

White Spirits

Recommended for use on

Fine Furniture, Doors, Cabinet Work and Panelling
